Figure 3. Generated plan and feedback controls; identifying profile details are cropped out.

Day 1 - Full body strength

Warm-up: 5 minutes of easy movement.

Main session: Chair or goblet squats 3×8-10; incline push-ups 3×8; backpack rows 3×10; easy walk 10 minutes.

Cool-down: 3-5 minutes of easy movement and comfortable stretching.

Day 2 - Cardio and mobility

Warm-up: 5 minutes of easy movement.

Main session: Warm up 5 minutes, then alternate 2 minutes brisk / 2 minutes easy for 20 minutes. Keep the effort controlled.

Cool-down: 3-5 minutes of easy movement and comfortable stretching.

Day 3 - Lower body and core

Warm-up: 5 minutes of easy movement.

Main session: Hip hinges 3×10; reverse lunges 2×8 each side; glute bridges 3×12; dead bug 2×8 each side.

Cool-down: 3-5 minutes of easy movement and comfortable stretching.

Day 4 - Recovery

Warm-up: 5 minutes of easy movement.

Main session: Rest or take an easy 15-20 minute walk. Finish with comfortable full-body stretching.

Cool-down: 3-5 minutes of easy movement and comfortable stretching.

* Progress is built one day at a time.

MAKE IT YOURS

Want to adjust something?

Tell us what you'd like to change and we'll shape the week around it.

Your feedback

More walking, gentler mornings, an extra rest day..

Update my plan →
